

Carrot

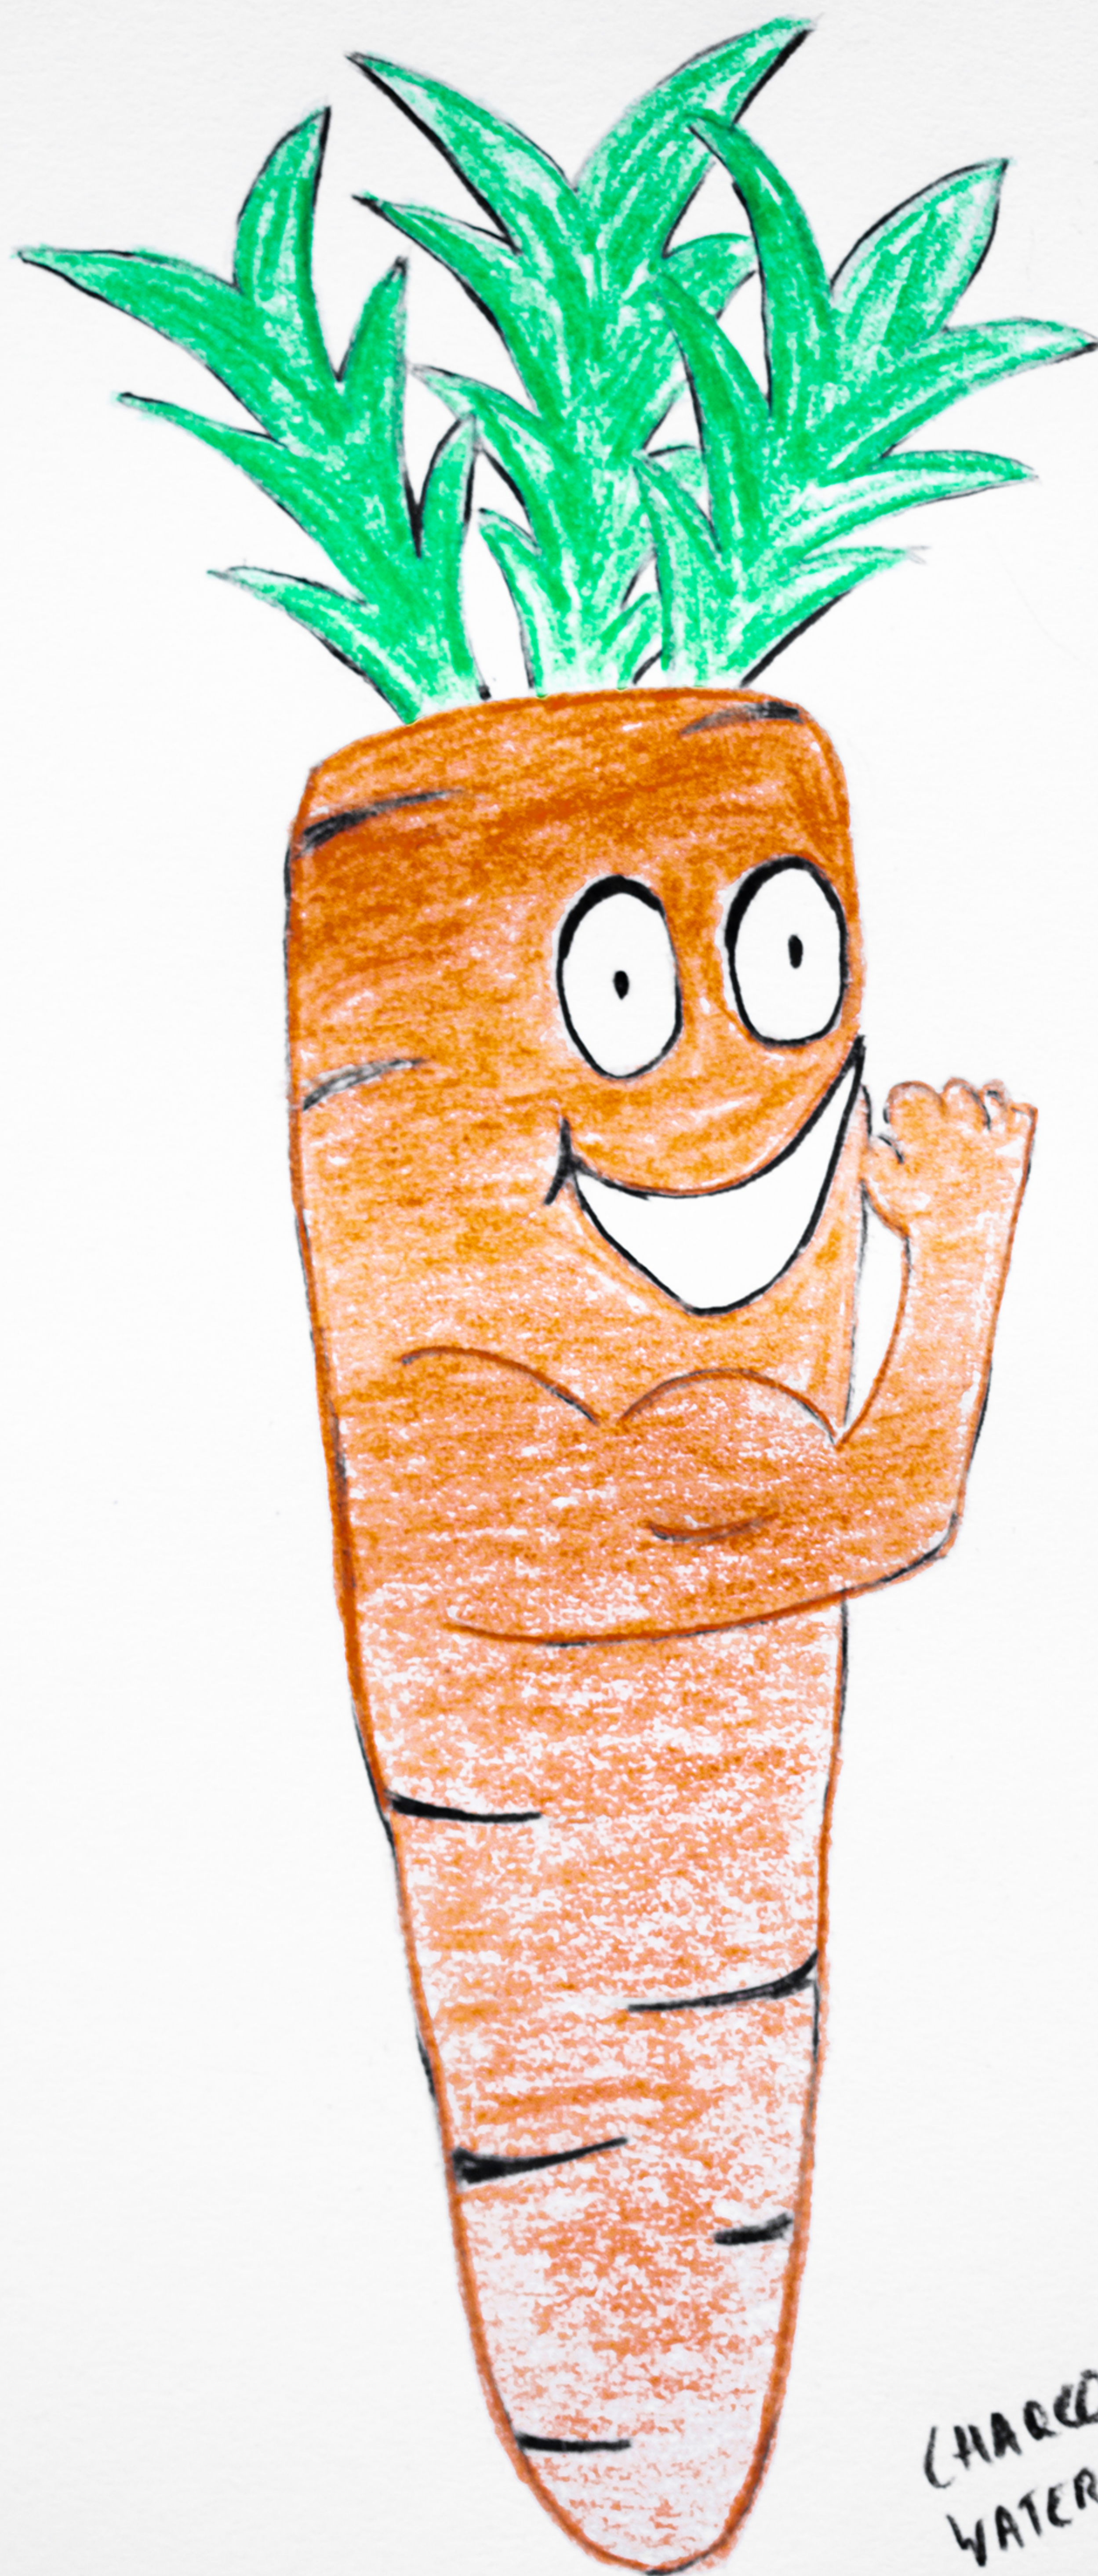

1. ***Carrot as Arthur's sword.*** This is a take on how carrots grow in the soil and have to be pulled out in order to consume. Some carrots are more stubborn than others and require some strength to collect. Almost makes you feel like King Arthur himself!
2. ***Carrot represented as healthy food;*** eating it makes you in good shape!
3. ***Carrot represented as a nose*** (in this case of a snowman) instead of food.
